

ARTEMIS BY ANDY WEIR

The Better Book Clubs Review:

The **novel** takes place in the late 2080s and is set in **Artemis**, the first and so far only city on the Moon. It follows the life of porter and smuggler Jasmine "Jazz" Bashara as she gets caught up in a conspiracy for control of the city. Excellent creation of the setting that you can really picture. There is more to this book than just a "Sci-fi" book. Very well written woman characters, with a strong feminist over tone that is not in your face.

**"Rounded,

**"Accessible,
